

MOBILE 4000 SERIES

4003-O

Open - Low Storage Double Faced

The Mobile 4000 Series incorporates all the basic features and models of the 1000 and 2000 Series. However, this is a larger, tougher cabinet, with a wider range of configurations to choose from. The unitized frame has four metal tubular uprights welded to the standard top and bottom frame. This frame provides great rigidity and resists "wracking" that may occur when moving the unit across uneven surfaces. Sides and backs are captured inside of metal frame channels to prevent damage while cabinet is being moved. The back panel has additional protection from curbs and forklifts. The 4000 Mobile Series standard cabinet is deeper than the 1000 and 2000 Mobile Series at 25"D.

- 1 adjustable shelf per side
- divider wall creates a cabinet with access to storage from either side; shelves are half-depth
